

Crick Bob Minor

The method is a once out and once in again method. Backwork is like Double Oxford. The frontwork has lead 3 blows point 3rds and lead. On the way out there's a 3/4 up dodge 2 blows in 4ths and point 2nds before you do 4ths again.

The bobs are Plain Bob Bobs which means that the following happens.

Bobs

2nds Place Bell becomes 3rds Place Bell

The bob will be called as you are leading about to make seconds

Run out but only to 4th place – Make 2 in 4ths, point 2nds, 2 more in 4ths and then do the back work.

3rds Place Bell becomes 4ths Place Bell

The bob will be called when you are in 3rds place about to dodge 3/4 up

Make 2 blows in 4ths and go back in to do all the frontwork – lead 3 blows, point 3rds, lead 2nds etc.

4ths Place Bell becomes 2nd Place Bell

The bob will be called when you are in 4ths place about to dodge 3/4 down

Run in and do the second half of the frontwork – lead full, point 3rds and lead three blows then go out.
